He will be scarcely more than forty when he comes out, wealthy, full of schemes invented during his mearceration, and not at all ashamed of his great exploit. That suits him better than banishment for

There was a cyclical collision on Contelegraph line has been cut and a portion of the wire carried off. The trail at both points indicated four or five Indians. It is impossible to decide which way the Indians intend taking to reach the Sierra Madres, their probable destination. Al. Sieber left Solomonville yesterday, on a trail leading into the foot hills at the mouth of the Gila Bonito. Several parties of scouts and volunteers are out from Apache. A company of the Eighth Cavalry is between the mouth of Eagle at the series of the series and the pilot wheel of First publication. Nov. 23 1885. gress street this morning, the result of street and the pilot the tireycle passed between the wheels of the bicycle and there was a with twenty men were at noon to-day, confusion of cycles for a moment, with the bicycle rider lying over on the IGem saloon sidewalk. Old Time, with his sickle, waspapparently hovering near, but he did not care to reap so early in the morning, and the boy arose and, finding no essential limbs missing, he again mounted his vehicle and sped gaily away up the street. Neither of the machines were injured.

The Los Angeles Herald of Sunday says: At nearly midnight last night nerve cannot stand the strain of contin- Son, and when completed it will be one in this city that a man had been found in the lower part of San Francisco pulpit, but he never did a day's physical pavy, and will range high in size and valley in an almost dying condition poison from the spines, which are as named settler has filed notice of his intent fine as bair and sharp as needles. They are barbed, too, and when once they have penetrated the flosh it is all but impossible to extract them. The Indians eat them, but they are skilled in removing the spines in the most careful of, said land, viz:

The Methodist University is a fixed fact for Pucuix and a preparatory school will commence about January GALVESTON, Dec. 5.-Meagre details | 1st under the management of Professor have been received of an accident to the and Mrs. Frambes, well and favorably west bound passenger train near Gor- known in California and Arizona as don last night. Twenty-six persons are educators. Our people will all be reported injured. Arguers, Dec. 5 - An earthquake has and Mrs. Framtes, who at one time to make final proof is support of his claim, Bladah and Medenh, and destroyed schools. They were the formelers of the or Bright's disease. This latter disease three-quarters of the town of Mona. Southern California thiversity, an institution of great wealth and usefulness tution of great wealth and usefulness the following witnesses to prove his twelve others injured. Among the vice at the present time, and we have no system and produces insanity and desperate times are several Europeans.

Works particular havoc with the hervous twelve others injured. Among the victory at the present time, and we have no continuous response.

He names the continuous response times are several Europeans.

As the time approaches for the second First publication, Nov. 17, 1865 brood of municipal nominees, the candiber of the Wilmington Star; "I am go- Warner's Safe Cure, and she is to-day along the coast.
